

VIRTUAL CAR RALLYE

How To Play

Welcome to the virtual car rallye! Here are some tips on how to play:

- Start by using the tabs above to read through the general, route, and supplemental instructions.
- Navigate in the street view above to follow the route implied by these instructions, paying close attention to street signs (you may need to zoom in...)
- When you see a coursemarker icon (a pie plate on a phone pole labeled “CM”), **hover over it** to see the label (a letter-number combination like E66).
- Record coursemarkers on your scoresheet by entering them in the text box above (if you enter one incorrectly, you can click the “x” to remove it).
- Note that coursemarkers can only be viewed when you’re close enough and traveling in the correct direction.
