

ZodiAC Online

The Virtual Car Rallye

Welcome to ZodiAC Online! Here are some tips on how to run the online rallye:

- Start by using the tabs above to read through the general, route, and supplemental instructions.
- Navigate in the street view above to follow the route implied by these instructions (you may need to zoom in to see street signs clearly)
- When you see a coursemarker icon (a phone pole with a pie plate labeled “CM”), **hover over it** to see the label (a letter-number combination like E66).
- Record coursemarkers on your scoresheet by entering them in the textbox (if you enter one incorrectly, you can click the “x” to remove it).
- Note that coursemarkers can only be viewed when you’re close enough and traveling in the correct direction.
- **Click on a checkpoint sign** to see any associated special instructions.
